

# UTSA SPRING 2017 NEUROBIOLOGY SEMINARS

Presented by the UTSA Department of Biology & UTSA Neurosciences Institute  
All seminars to be held in the BSB 3.03.02, Main Campus 12:00pm-1:00pm

| DATE | SPEAKER  |                           | TITLE  |
|------|--|---------------------------|--|
| 1/12 | <b>Tiziano Barbieri, PhD</b><br>Associate Scientist      | SW Natl Primate<br>Center | <i>Directed derivation of specific cell types from human pluripotent stem cells</i>                      |
| 1/19 | <b>Leslie Whitaker, PhD</b><br>Fellow                    | NIDA                      | <i>Functional alterations within neuronal ensembles that mediate associative learning</i>                |
| 1/26 | <b>Henry Yin PhD</b><br>Associate Professor              | Duke U                    | <i>Basal Ganglia in Action</i>   |
| 2/2  | <b>Harel Shouval, PhD</b><br>Professor & Chair           | U of Houston              | <i>It's about Time</i>   |
| 2/9  | <b>Peter Kalivas PhD</b><br>Professor & Chair            | MUSC                      | <i>Using the neurobiology of will power to treat drug addiction</i>                                      |
| 2/16 | <b>Ibey Bennet</b>                                       | Ft. Sam<br>Houston        | <i>"The biophysical and biochemical impact of nanosecond pulsed electric field exposure"</i>             |
| 2/23 | <b>Serena Dudek, PhD</b><br>Deputy Chief & PI            | NIEHS NIH                 | <i>Deciphering the Physiology and Function of Hippocampal Area CA2</i>                                   |
| 3/2  | <b>Christiane Linster, PhD</b><br>Professor              | Cornell                   | <i>Regulation of learning and recall in the olfactory system"</i>  |
| 3/9  | <b>Nick Hollon, PhD</b><br>Fellow                        | Salk Inst UCSD            | <i>Striatal dopamine in action selection and evaluation</i>  |
| 3/23 | <b>Gemma Casadesus, PhD</b><br>Associate Professor       | Kent State U              | <i>Balancing age-related hormonal dysregulation to combat Age-related memory loss and AD development</i> |
| 3/30 | <b>Alan Lerner, MD</b><br>Chair for Learning & Cognition | Case Western<br>Reserve   | <i>The New Alzheimer's Disease</i>   |
| 4/6  | <b>James Tepper, PhD</b><br>Distinguished Professor      | Rutgers Newark            | <i>Intrastriatal Interneuronal Circuitry"</i>  |
| 4/13 | <b>Joanna Phillips, MD PhD</b><br>Assistant Professor    | UCSF                      | <i>GBM heterogeneity and the extracellular regulation of oncogenic signaling</i>                         |
| 4/20 | <b>Zhihong Chen, PhD</b><br>Research Associate           | Emory Med                 | <i>Cellular and molecular identity of tumor-associated macrophages in glioblastoma</i>                   |
| 4/27 | <b>Suzanne Haber, PhD</b><br>Assistant Professor         | U of Rochester<br>Med Ctr | <i>RESCHEDULED for FALL 2017</i>   |
